

The map displays the distribution of four plant species in the Canton of Valais, Switzerland. The species are represented by colored dots: red for *C. rubra*, green for *C. hirsuta*, purple for *C. hirsuta*, and blue for *C. hirsuta*. The map includes geographical features such as the Rhodan Alps, the city of Sion, and various rivers and roads. Numbered circles 1, 2, 3, and 4 indicate specific locations of interest.
